## **WE GO BEYOND BOUNDARIES**

A child is inherently a learner with a natural inclination to explore, discover and share that new-found knowledge with family and associates. In today's age, for a child to grow up into a responsible and responsive citizen, indeed a sensitive global citizen, a whole new mindset is vital in imparting learning in school which addresses a child's multifarious developmental needs.

It is with this motivation that Sir Shri Ram took initiatives in the field of education and set up some of India's renowned educational institutions. Today these reputed institutions are delivering quality education, resulting in nurturing their students' development – both in terms of knowledge and character – so as to be of value in the current changing world.

Shri Ram Global School is an initiative of the Shri Ram Education Trust, an institution conceived to impart the best education, coupled with development of values and personality traits, that breeds achievers.

In essence, Shri Ram Global School sets forth the way for each child to develop his/her unique potential, fostering in the child the ability to become a successful citizen, soaring high in tomorrow's world. The school emphasises on a constructive relationship between parents and teachers as an important factor contributing to a child's success. It entails building on the foundation of known educational principles, going beyond to the inculcation of new learning.

## **PHILOSOPHY**

It is a widely acknowledged fact that children bring varying perspectives, cultures and experiences to the classroom. At the Shri Ram Global School, we are acutely sensitive to the nurturing of children during the formative years when human character takes shape. Children explore themselves as unique individuals in the context of their surrounding environment. We encourage them to express their interest, respect and be sensitive towards each other, and take up responsibility during interactions. This is how we balance the imparting of learning with inculcation of values in each child. Our constant endeavour is to ensure that every child in our care is endowed with the noble qualities of character, which carves out a responsible and responsive member of the society.

Children are the future of the country.  
So it becomes our foremost duty to take care of  
them and give wings to their potential.

## **MESSAGE FROM THE DIRECTOR**

Every child has innate divinity and boundless  
imagination.

We will teach our students to make use of it, and  
nurture them to become responsible citizens, so that  
wherever they may go they would make India  
proud.

Each child has a unique role to play in the universe.  
We intend to bring out their inimitable qualities and  
showcase their talent to the society.
